

ITEM NO.: 15880

CONTENTS: 90 CAPSULES

NOURISHMENT FOR A HEALTHY LIVER

This proprietary formula combines cutting-edge ingredients into an effective formula targeted at making sure the liver has the support it needs to be a powerful protector of the body's health.*

When the liver operates efficiently and effectively, all other body organs and systems run more smoothly. The liver, which plays a crucial role in detoxification, carefully guards the heart, ensuring that harmful compounds are removed from the blood before ever reaching that critical organ. In addition, the liver works closely with the lungs, skin, colon, and kidneys in the process of eliminating waste materials, another important element of health and wellness.*

Milk thistle fruit complex: Milk thistle has been used historically for internal purposes and promotes health of the liver, bile ducts, and spleen. This proprietary complex has been shown to provide antioxidant protection and aids in stabilizing cell membranes of the liver.*

Green tea (Camellia sinensis): Chinese legend claims that this favorite tea supports the body as a major antioxidant.*

N-acetylcysteine: This important ingredient provides antioxidant protection that is involved in the body's cleansing efforts.*

Curcumin: A traditional favorite, this substance features antioxidant potential for protection against free radical damage.*

The liver, which plays a crucial role in detoxification, carefully guards the heart, ensuring that harmful compounds are removed from the blood before ever reaching that critical organ.

- ✓ Nourishes and cleanses the liver.**
- ✓ Provides key antioxidants that are involved in cleansing the liver.**
- ✓ Promotes health of the liver and gallbladder.**
